----- For Immediate Release -----

WEST ROOFING SYSTEMS, INC. TO RECOGNIZE THE IMPORTANCE OF ROOFS, ROOFING INDUSTRY DURING NATIONAL ROOFING WEEK, JUNE 4-10

LaGrange, Ohio (June 3, 2017) – To increase recognition of the significance of proper roofing systems to every home and business, stress the value of professional roofing contractors, and promote the charitable deeds of the industry, West Roofing Systems, Inc. will recognize National Roofing Week taking place June 4-10.

The roof is one of the most important components of a structure, yet it is often taken for granted until it falls into disrepair. Organized by the National Roofing Contractors Association (NRCA), National Roofing Week enables roofing professionals to engage in their communities and inform the public about the essential role roofs and professional roofing contractors play in every community.

During National Roofing Week, West Roofing Systems, Inc. will celebrate our hard working employees throughout the week and share photos from our worksites.

"We are a proud member of The National Roofing Contractors Association," said Jack Moore, President/CEO of West Roofing Systems. "Our team works hard every day to provide high-quality commercial roofing systems, and we take this week to celebrate their dedication."

National Roofing Week takes place each summer. Its mission is to increase awareness across the U.S. about the significance of roofs to every home and business and share the good deeds of the industry. National Roofing Week also promotes the importance of hiring a professional roofing contractor and making informed decisions about maintaining or replacing any roof system.

Additional information about National Roofing Week can be found at www.nrca.net/roofingweek.
